## Summary of top strengths and areas to improve

The goal of 360° Feedback is for you to use the feedback for your personal development, to help you grow and achieve more in your career.

You were given feedback on 50 different areas. We recommend that you focus on your top strengths and areas to improve, listed below.

### Your top 5 strengths

1. Updates procedures
2. Safety rationale
3. Follows legislation
4. Evaluates P&P effectiveness
5. Eager to learn

Each person gave you a score (out of 5) for your current performance for each of the areas in the assessment. Your top 5 strengths are the areas for which, on average, you were given the highest scores.

### Your top 5 areas to improve

1. Manages conflict
2. Calm under pressure
3. Behaviour mgmt
4. Adapts approach
5. Aware of impact

Each person also gave you a score for your desired performance. The top 5 areas to improve are those for which the gap between your current performance and your desired performance is largest.

# Spidergraph

The spidergraph below shows all of the areas you were assessed against and the average scores given by people assessing you (not including your own score).

- Current performance
- Desired performance for 12 months time

# Your top strengths

"Playing to your strengths" is a great way to improve your performance. When you know what your strengths are, you can look at ways of making better use of them, and consider developing them further.

Your colleagues rated the areas below as your top strengths. Review whether you understand and agree with your colleagues, or if there are any surprises to discuss with your manager.

We recommend you focus on these top 5 strengths

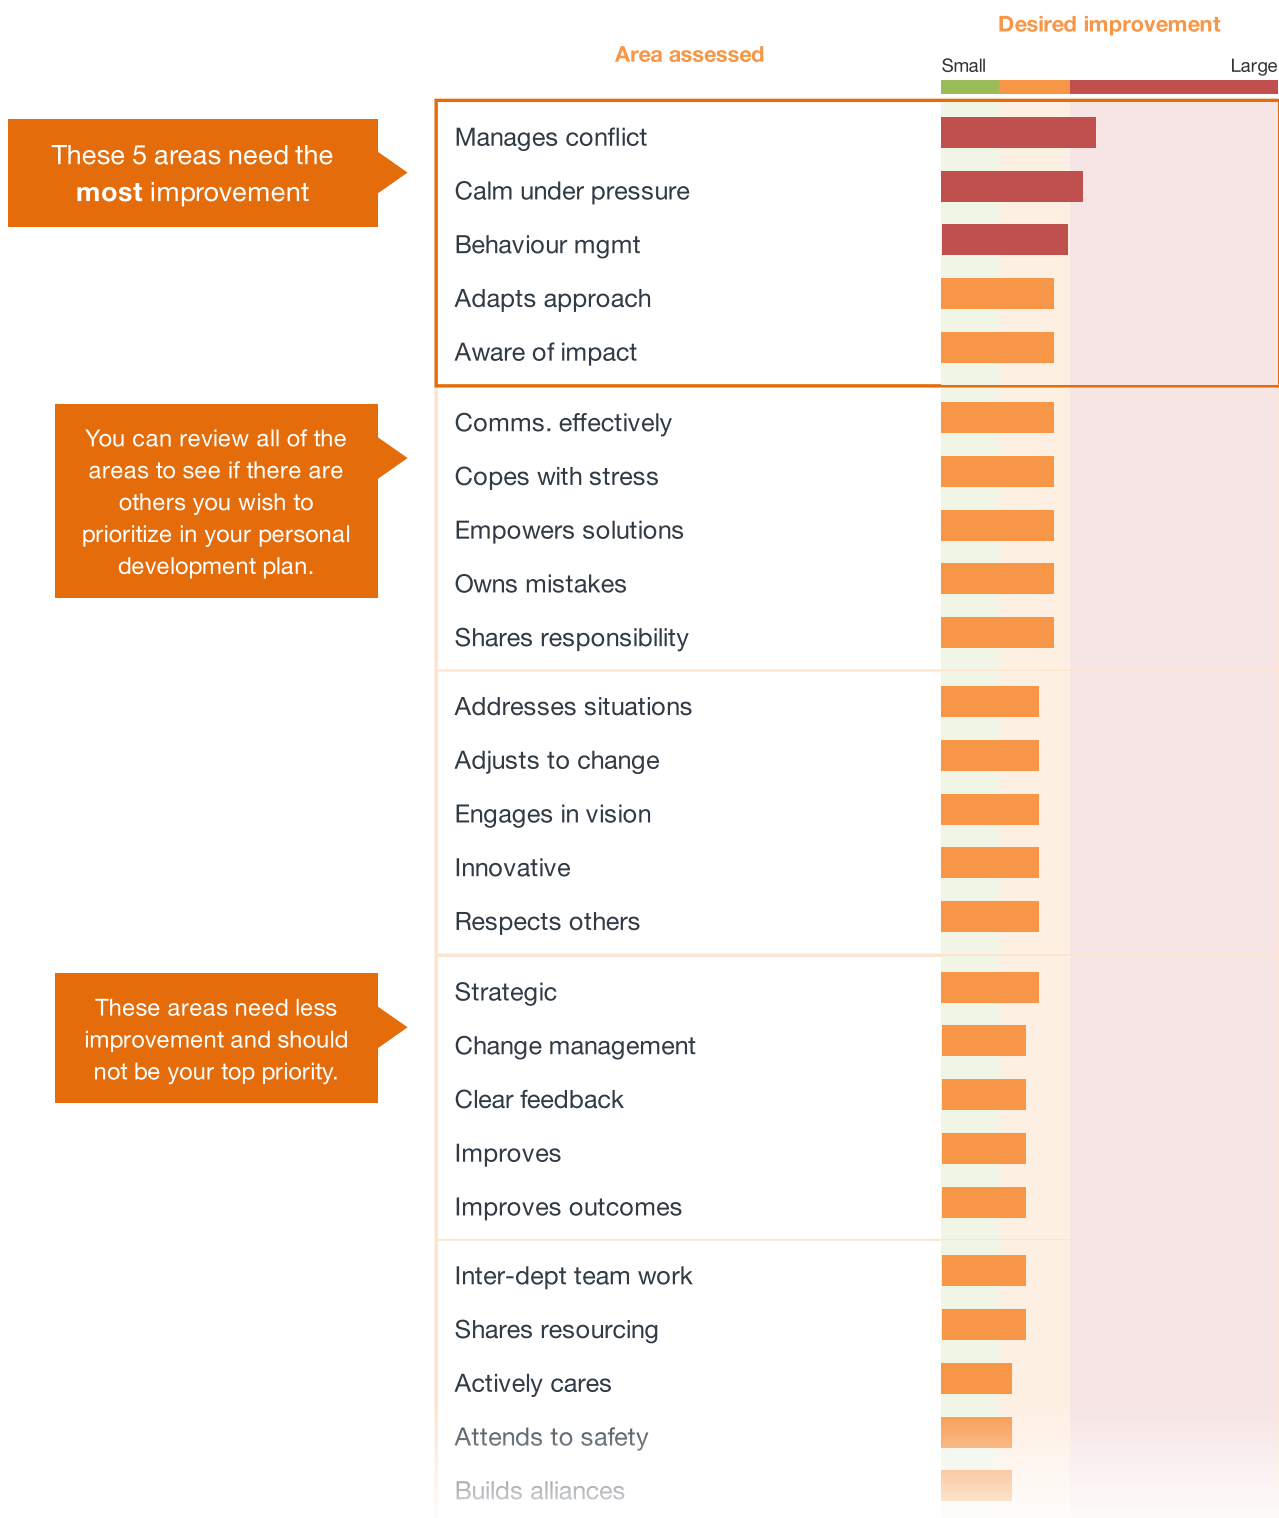

You can review the other areas to see if there are any surprises.

# Your top areas to improve

Your colleagues were asked to rate both your current and desired performance. The areas that your colleagues think you would benefit most from improving are listed below.

Review if you agree with the areas below, or if there are any surprises to discuss with your manager. You may wish to tackle one or more of these areas in your personal development plan.

# How different groups rated your top areas to improve

Different groups of colleagues may have different views on which areas need most improvement. This can help to explain why certain areas have come out top, and why others have not.

Compare the views below and think about why there are differences.

This column shows the average amount of desired improvement.  
 Note: we do not include your view when calculating this average

You can compare the different views of respondents below.

Please provide an explanation of the scores provided for 'Planning'

**Your view** My biggest weakness is time management, and this can have a negative impact on the team.

**Others** John often has problems breaking down tasks and so sets unobtainable goals

John seems to put adequate time into planning his work

You've impressed with your ability to plan both your own work and that of your team!

Fine.

Good at prioritising and planning generally, however he can miss the finer details

At the top of each section, you'll see the scores provided and the amount of desired improvement

If the section included text-based questions, the answers to those questions are shown below.

## What do the scores mean?

For each area, each person gave you a score out of 5 for both your current performance and desired performance. The meaning of each score is shown in the scale below:

The desired improvement is then calculated as the score for desired performance minus the score for current performance. An average gap of 0 to 0.3 is considered small, a gap of 0.4 to 0.8 is considered medium, and a gap larger than 0.9 is considered large.

## The Standards

The National Safety and Quality Health Service (NSQHS) Standards provide a nationally consistent statement of the level of care consumers can expect from health service organisations. The following questions were asked to measure a leader's influence on the promotion of these standards. Results are shown below.

For the relevant Standards questions it is important for leaders to work towards achieving a 5, i.e. 'All of the time.' Therefore, scores more than 0.9 lower than 5 have been highlighted in red as 'large,' development areas, between 0.4 and 0.8 in orange as 'medium' and between 0 and 0.3 in green as 'small.' These development categories are consistent with those in the capability section of the report. Questions that were deemed by raters as irrelevant have been indicated as n/a or 'not applicable.'

# Impact on Others

Understanding the impact our actions have on others is one of our most powerful leadership tools. High performing leaders understand how their behaviour and their leadership style impacts others and know how to use both in order to get the best results from their people. Raters were asked to provide feedback on leadership impact and respond to how they feel in their interactions with this leader. Results are shown below.

\*questions were originally asked as negatively worded questions and both the question and result have been reversed for consistent graph presentation.

# Impact on Others

Psychological safety is an important element to high-performing teams and is characterised by shared beliefs that team members can share ideas, challenge each other, and will not be punished for making mistakes. Raters were asked to rate their level of agreement to 7 statements relating to psychological safety. Results are shown below.

## HILCA 360 Degree Feedback Report

This report contains detailed feedback collected from the respondent and between 5 to 20 colleagues as part of the Health Industry Leadership Assessment.

The survey measured how the respondent and others perceive their leadership capability. HILCA 360 uses data to create insights to drive organisational clarity, focus, investment, change and performance. It shines a spotlight on the most significant gaps for the individual and organisational leadership capability by understanding the current and desired performance.

### Disclaimer

The HILCA 360 questionnaire has been designed by Veraison to help partnering organisations. It is designed to increase your technical knowledge or understanding of management techniques AND to also expand your understanding of yourself. Although the instrument, when analysed, indicated the sought-after qualities of validity and reliability, the absence of norming data makes it unrealistic to make strong validation and reliability claims. Veraison is in the process of further reliability, validity and norming testing. It is therefore recommended that the questionnaire is not used outside the scope of its original design and specific intent. This report is for self-development purposes only and should not be used for recruitment or promotion purposes.
