FOUR FACTORS

ISA 360 measures **four factors** or 'ingredients' that lead to **high performance**. It also shares insights into the leader's **impact on others**, including their ability to foster **psychological safety**.

Includes valid and reliable measure of psychological safety incorporating **Edmonson's 'Team Learning and Psychological Safety Survey'** questions

Purposeful

The leader's ability to have and demonstrate a personal commitment to safety and effectively engage others in the commitment.

Caring

The leader's ability to produce a desired or intended result through genuinely caring about people.

Curious

The leader's ability to listen effectively in a way that seeks a greater understanding of all perspectives.

Connecting

The leader's ability to optimise both personal and process safety, at the individual and organisational level to ensure everyone works safely.

 Gap analysis across 34 capability areas reveals what's needed at an individual and team level to enable connection and activation in the areas that will have the biggest positive impact.
